

I feel like I am so young
I'm here on the street so drunk
But this is not time for fun
The world destruction
Why are you here alone?
Baby, now it's so cold
Your green eyes stole my soul
This is seduction

Baby, bring me back to life
You took my soul right from the start
I wanna take, take, take, take, take you away
I wanna play, play, play, play, play the last game
Baby, bring me back to life

Seeing your face, I'm good
I'm not afraid anymore
Face to face with death I ignore
The world destruction
Look forward, the world is not yours
These days all I wanna be is yours
Never look back, there is nothing in the past
Forget about all, so little time we have

Baby, bring me back to life
You took my soul right from the start
I wanna take, take, take, take, take you away
I wanna play, play, play, play, play the last game
Baby, bring me back to life

You know I love your name
Let's keep it a secret
You know I love your name
Let's keep it a secret, baby
Let's keep it a secret
Let's keep it a secret, baby
Let's keep it a secret
Bring me back to life
Love your name
Let's keep it a secret
Love your name
Let's keep it a secret

Baby, bring me back to life
You took my soul right from the start
I wanna take, take, take, take, take you away
I wanna play, play, play, play, play the last game
Baby, bring me back to life
Take, take, take, take
Play, play, play, play
Baby, bring me back to life

I feel like I am so young
