

It's a day to begin  
It's a day to start all over again  
Now I'm stronger  
Now I'm stronger  
Now I'm stronger  
Now I'm stronger

I lose my mind, I lose control  
I start to fight with myself, the enemy, yeah  
All the things around me lose their meaning  
Just a usual day with a lot of changes  
Starting to create another reality, oh  
I can only feel my heart stops beating  
I am swimming in an ocean, in an ocean all alone  
Because I used to live so, and you'll never hear "Hello"

It's a day to begin  
It's a day to start all over again  
Now I'm stronger  
Now I'm stronger, is it truth or fiction?  
Now I'm stronger  
Now I'm stronger, is it truth or fiction?  
It's a day to believe  
My life is not complete without you  
It's not over  
It's not over, what's your heart's condition?  
It's not over  
It's not over, what's your heart's condition?

You're stuck with me somewhere in the past  
And we both know what we gonna do  
I can only feel my heart stop beating  
I am dreaming in an ocean, in an ocean of my thoughts  
And I don't know is it worth it? The ego says: "No"

It's a day to begin  
It's a day to start all over again  
Now I'm stronger  
Now I'm stronger, is it truth or fiction?  
Now I'm stronger  
Now I'm stronger, is it truth or fiction?  
It's a day to believe  
My life is not complete without you  
It's not over  
It's not over, what's your heart's condition?  
It's not over  
It's not over, what's your heart's condition?

No, no, no, no, no  
Every fucking time when you take your phone  
You can hear my cold hello  
But none of those dirty bitches compare to you  
Nobody can do it like you  
Sometimes I miss you, sometimes I hate you  
Your words are so hot, so, please, take it back and shut the fuck up

It's a day to begin

It's a day to start all over again  
Now I'm stronger  
Now I'm stronger, is it truth or fiction?  
Now I'm stronger  
Now I'm stronger, is it truth or fiction?  
It's a day to believe  
My life is not complete without you  
It's not over  
It's not over, what's your heart's condition?  
It's not over  
It's not over, what's your heart's condition?

It's a day to begin  
It's a day to believe  
It's a day to begin  
It's a day to believe

Sometimes I miss you, sometimes I hate you  
Sometimes I fade away, my life is not complete without you, baby
