

Slow Motion

Wildways

Oh why you stand alone?
You gonna get up and try it
You gonna get up and try it
So step up step up step up
Oh why you stand alone?
You gonna get up and try it
You gonna get up and try it
So step up step up step up

Every time when we're dreaming
All the people move in slow motion
Nobody can't hear we screaming
Our city looks like an ocean

Feel free and let me your hand
Hold on and show me what you can
Keep calm
Forget about everything you hate

Every time when we're dreaming
All the people move in slow motion
Nobody can't hear we screaming
Our city looks like an ocean
Every time when we're dreaming
All the people move in slow motion
Nobody can't hear we screaming
Our city looks like an ocean

Oh why you stand alone?
You gonna get up and try it
You gonna get up and try it
So step up step up step up
Oh why you stand alone?
You gonna get up and try it
You gonna get up and try it
So step up step up step up

Do you remember?
When we were young and naive
We thought we'll die together
So where we were run? Tell me where we were run?
Burning hearts in the burning bodies
It's too hot when you're dancing
It's too hot when we're here
Hold on hold on hold on
Keep calm and just dance

Every time when we're dreaming
All the people move in slow motion
Nobody can't hear we screaming
Our city looks like an ocean
Every time when we're dreaming
All the people move in slow motion
Nobody can't hear we screaming
Our city looks like an ocean

(Do you remember?)

(When we were young and naive)

Every time when we're dreaming
All the people move in slow motion
Nobody can't hear we screaming
Our city looks like an ocean
Every time when we're dreaming
All the people move in slow motion
Nobody can't hear we screaming
Our city looks like an ocean
