

What You Feel

Wildways

Let's Go!

All my life I never thought of love and that's amazing
It's like I see the light at the end of the tunnel
You think I'm stupid but you'd better think of yourself
I will just leave it all here and run away to chase my dreams

That's who I am
That's what I feel
These words are about who I want to be
That's who I am
That's what I feel
This song is about me

Just touch my skin
What you feel is real
Bring me the words
That I want to hear
Now I take the pain away
You never said
You never said that you love me

Can't Remember

Don't wasting my time

Raindrops keep falling on my head
Raindrops keep falling on my head

Stop it
You're killing me
I can't breathe
How long will I wait for the end of this story
Leave me
You're killing me
Please do it faster
Please do it faster

That's who I am
That's what I feel
These words are about who I want to be
That's who I am
That's what I feel
This song is about me

Just touch my skin
What you feel is real
Bring me the words
That I want to hear
Now I take the pain away
You never said
You never said that you love me
Just touch my skin
Just touch my skin

Just touch my skin
Just touch my skin

Just touch my skin

Just touch my skin
What you feel is real
Bring me the words
That I want to hear

You never said that you love me
