# Wings

**Wildways**

Run away run away go
Find a way
You got to know
Fly away fly away up
Don't give up
Run away run away go
Find a way
You got to know
You got to know

I don't know what I'm doing here?
On the edge of misery
Oh you got to know
You got to know
I just wanna fade away
And I can't read your name again
You got to know
You got to know

Run away run away go
Find a way
You got to know
You got to know
Fly away fly away up
Don't give up
Run away run away go
Find a way
You got to know
You got to know

Stay away stay away from me
Put the blame put the blame on me
Check this sound check this sound it's me
Listen up
Even when I don't wanna believe
All the time I can't feel free
Something huge is holding me
Holding me now

(Oh-oh-oh) Standing on my own
(Oh-oh-oh) The life I used to know
(Oh-oh-oh) Standing on my own
(Oh-oh-oh) Forget about the life I used to know

Run away run away go
Find a way
You got to know
You got to know
Fly away fly away up
Don't give up
Run away run away go
Find a way
You got to know
You got to know

Run away run away go
Find a way

You got to know
You got to know
Fly away fly away up
Don't give up
Run away run away go
Find a way
You got to know
You got to know

Forget about the life
Forget about the life I used to know
You're searching for heaven
And I could show you yeah
So how you feel right now?
Is all your pain gone?
I'd like to try again from the start
You've got to know
