

# All The Time

Wiley

We used to think of play  
Then I had to take a hike  
Say you're gonna change your life  
But you say that all the time  
We used to think of play  
Then I had to take a hike  
Say you're gonna change your life  
But you say that all the time

Ay, I ain't perfect  
I changed a bad path to greatness  
All the falls I took in the game  
Taught me basics  
It's up to you and yourself  
If you wanna change it  
There was no guarantee  
I was ever gonna pop or make it  
Show me a record  
I'm gonna wanna break it  
I spent most of my life  
Up working the night or day shift  
I would be lost  
If I didn't have yours that needed raising  
Against all odds, that vibe's amazing  
Think I needed saving

We used to think of play  
Then I had to take a hike  
Say you're gonna change your life  
But you say that all the time  
We used to think of play  
Then I had to take a hike  
Say you're gonna change your life  
But you say that all the time

If you can find a job you enjoy  
That's the best one  
If that ain't working  
Then you should quit, find a next one  
I've been driving the game for a moment  
Been a long test run  
Everybody looking for a vibe  
But not everybody gets one  
That's why I walk in like "Who disagrees?", "Step 1"  
They bought everything they wanted  
But cash? Dem dons never kept none  
Check  
Their work never gets done  
I was at that stage  
Went to the next one

We used to think of play  
Then I had to take a hike  
Say you're gonna change your life  
But you say that all the time  
We used to think of play  
Then I had to take a hike

Say you're gonna change your life  
But you say that all the time

(Say you're gonna change your life  
But you say that all the time  
We used to think of play  
Then I had to take a hike)  
We used to think of play  
Then I had to take a hike  
Say you're gonna change your life  
But you say that all the time
