

I strap lyrics make beats for the fun of it
Music's powerful, I'm the son of it
I take time out
I can rhyme out, 'til my time's out
Who's that chatting about he's gonna get his nine out
Wasteman, mind out whatchu wanna draw for
Sixteen lines out, show me a sign out
I rep for your manor since (when), been a dapper since (when)
Been a jacker since (when), don't lie now
I'm an East boy, East boy like K-A-N-E
Come from the bloc but it ain't all jenny
It's very disturbed you know I'm ready
So I won't bother explaining, I'll just bury the hatchet
Flows and rhymes, they try and match it
When they throw [?] too quick I will catch it (I'll catch it)
You've got the limelight, I'll snatch it
I told you all these crews they can't hack it
Wooly I'm still standing, raving and ranting
You're a good actor, you should try acting (acting)
If it's war then, I'll take the captain
Tell me what you know about clashing, paper stacking
See me I'm real there's no acting
You wouldn't know the score, you're just trapped in
I can hear 'em still I don't fear 'em
I'm standing near 'em Wiley's boy Sheeran
You know what I don't like half boy opponents
You're against me so change your components
I'm a G blud, I rep for the olders
I cause magical moments, I was chosen
Prick, whatchu think, I don't wear a mint
You see my ship's sailing, I watch your ship sink
We don't think the same I've got a mind of my own
I was born on my own I will die on my own

If Eskiboy comes 'round your way it's not a bagga man just me
So, take a break and, take a rest and take a breather that's me
Don't need 20 man one glove on my hand I'll protect family and me
If you're a part of the family tree from Bow E3 then count on me
If Eskiboy comes 'round your way it's not a bagga man just me
So, take a break and, take a rest and take a breather that's me
Don't need 20 man one glove on my hand I'll protect family and me
If you're a part of the family tree from Bow E3 then count on me

These brand new G's they're not like me
They will kill for a stripe, but I get stripes free
Everybody wants to earn a stripe like me
Eat pies like me, make money like me
These brand new G's they're not like me
They will kill for a stripe, but I get stripes free
Everybody wants to earn a stripe like me
Eat pies like me, make money like me

E-suck-I, B-O-Y
Back stage in the show, top B-O-Y yeah
He knows why, I'm gritty and grimey
Couldn't try and clash me slyly
Yeah I'm Kylea, what what I could be rowdy

Used to role with Houdini and Jet Li
I've had oldschool [?] Marcus Ramsey Stratford boys and they was always on m
e
Ends and [?]
Back on my case, the list goes on
I've had breh's on my case so
I don't really care about all your fake pricks
I lick your new boys down with snooker sticks
And you're a new gangster, oops I meant prankster
You're a new prankster, oops I meant wankster
Wiley's not a wankster, money in the bankster
I could afford a strap seven years backster
Call me Bill Baxter
Used to roll with Justin and Asher
Watch the 8 series, gotta be cautious
Oi rudeboy don't mean dangerous, you're not a gangster
Trust me just be real to yourself
You will live much younger
Your life's different
Nobody wants to kill you, it's okay for your to mingle
I'm not like you, you're not like me
They will not like me when I go around the world ten G's for a PA
At this stage get a G for a PA
I run the sport like EA
Stop your girl from trying to liaise
I'm in the studio for Christ sake
What this mind games, yeah that's mind games
I like mind games, I make gash go mad
Don't try and play mind games

If Eskiboy comes 'round your way it's not a bagga man just me
So, take a break and, take a rest and take a breather that's me
Don't need 20 man one glove on my hand I'll protect family and me
If you're a part of the family tree from Bow E3 then count on me
If Eskiboy comes 'round your way it's not a bagga man just me
So, take a break and, take a rest and take a breather that's me
Don't need 20 man one glove on my hand I'll protect family and me

Eat pies like me, make money like me
These brand new G's they're not like me
They will kill for a stripe, but I get stripes free
Everybody wants to earn a stripe like me
Eat pies like me, make money like me (make money like me, make money like me
, make money like me)
