Whoo, what the fuck?

Why you calling me a mason, when I stem from the pirate stations?
I was giving out special dedications, to the listeners all around the nation
I make music, that's my occupation
I got chain but it never been taken
I think ahead, that's why I never complacent
Whoever's king, why we always wanna chase 'em
I started on my junket, sitting in my basement
That's why real musicians, I rate 'em
In my right mind, I can never hate 'em
I'm in the UK getting inspiration
We need a new kind of formation
So let me make slight alteration
They wanna act like God never made 'em
You see the roads they travel, I paved them (Whoo Kid)

To all my UK stars, it's a wrap here
We ain't never gonna go back then
We got a future that's brighter than a dark one
Take my advice when I tell ya, please don't throw it away
To all my UK stars, it's a wrap here (Wrap here, wrap here)
We ain't never gonna go back then (Back here, uh)
We got a future that's brighter than a dark one (Dark one, uh-huh)
Take my advice when I tell ya, please don't throw it away ([?])

So police wanna hit me with they night stick
Free tax, free money, they don't like it
But this money make bad bitches like me

Chilling other niggas on the block, they don't like me, like me
