

Great Escape

Wiley

It's gonna be a great escape
It's gonna be a great escape
It's gonna be a great escape
It's gonna be a great escape

Take me away, to another place
The dancefloor is the beach tonight, and music is the blue sky
I want to fly, jump on a ride
I don't need a holiday, 'cause tonight is (Yo) gonna be a great day (Eskiboy
)

I told them, West End clubbing goes well together with West End loving
Strawberry with [?]
Got me on a vibe, when she takes, look into my eye
Like snap
We thinking the same thing, it's a wrap
Great escape, and I won't come back til I wanna
Try ringing my phone, but don't bother
When she leads, I follow

And I don't know, which I'm taking
And I don't care, which way I go
Can't waste no more time, I need a change
Ready for action, ready to go

Take me away, to another place
The dancefloor is the beach tonight, and music is the blue sky
I want to fly, jump on a ride
I don't need a holiday, 'cause tonight is gonna be a great day (Eskiboy)

Get an eye full
See girls in the club that don't get along, be spiteful
Stay away cah it's not my business
I tell my ting, "cool, drink this"
I'm a raver, she likes to rave too
It's party tunes that we like to rave to
Getting lost in the zone 'cause of alcohol
Wanna fly, let me take you

And I don't know, which I'm taking
And I don't care, which way I go
Can't waste no more time, I need a change
Ready for action, ready to go

Take me away, to another place
The dancefloor is the beach tonight, and music is the blue sky
I want to fly, jump on a ride
I don't need a holiday, 'cause tonight is gonna be a great day

I'm on some other kind of level tune vibe
I wanna different kind of party this time
Ain't nothing moving me the way this do
I'm ready to do something new, new

And I don't know, which I'm taking
And I don't care, which way I go
Can't waste no more time, I need a change

Ready for action, ready to go

Take me away, to another place
The dancefloor is the beach tonight, and music is the blue sky
I want to fly, jump on a ride
I don't need a holiday, 'cause tonight is gonna be a great day

Take me away (Take me away), to another place (To another place)
The dancefloor is the beach tonight, and music is the blue sky
I want to fly (I want to fly), jump on a ride (Jump on a ride)
I don't need a holiday, 'cause tonight is gonna be a great day (Is gonna be
a great day)
Great day (Is gonna be a great escape)
Great day
Great day (Is gonna be a great escape)
Great day
Great day (Is gonna be a great escape)
Great day
Great day (Is gonna be a great escape)
Great day
