

# I'm A Sinner

Wiley

Eskiboy

Right now

Ay you know what I knew they was gonna send you

Oi Ghetto, how you sending Skywalker you don't know I'm a badman for Skywalk  
er

So what was you thinking blud

Yo

I'm sending, I'm sending, can't stop sending

Stay away 'cause you don't wanna see careers ending

Willy's not a prick he's got record deals pending

Come to my ends just to see if I'm defending

I'll smash [?] drag you out do it like Brenton

I gotta big up Mark Fenton

Show me the suaves I was suave for the gyaldem

Looking for a way to release all my tension

Just 'cause I'm banging the girls it don't mean I wanna get them

I'll draw for the samurai and wet them

I'll be on my own, brehs you can go and get ten

He said his crew roll deep with the MAC-10

You're a liar and you will get slapped ten times for the MAC talk, guns you  
don't pack them

Said they got guns they ain't and I will slap them

That bag on your waist will get snatched then (I'm a sinner)

It's a fact when I come across beef I can send for a guy that will come along  
g and wrap them

You don't wanna see your homeboy get snatched then

Held for a couple of days over cash then

Held for a more couple days till you go to the bank then

Torture and harassment

While me and my boys are inna bashment

Champagne, lemon seeds I'm with gyaldem

Raving, I'm raving, can't stop raving

Came with Johnny so tell me you brought Dave in

I came from the hood and you will never see me slaving

I weren't phased four years back when I was baising

Me and Sneakz bring a Q each and then you bring an eighth in

I'm the dream you're chasing

I'm going, I'm going, I'm gone, let's play racing

It's not a boy it's a legend you're facing

It's new mix the beats you like lacing

Don't lose your faith in me it's not that but I'm ageing

Can't chat shit when you're spitting I will listen to your bars and break yo  
u down

I'm taking the piss it's the piss that you're taking

If I'm in a crew, don't care bring a snake in

I can teach a snake about snaking

I paint the picture, a perfect painting

I paint the picture, see what I'm saying

Anywhere I'm going I'm on it I start spraying

You ain't playing for keeps then sorry I ain't playing

No time for shit Jet knows what I'm saying

Beef with us you start praying that we don't see you first talking no consta  
nt waiting

Run around town with the straps you get happy

Get knicked straight away then you need saving (I'm a sinner)

I'll piss on The Movement, it's only Ghetts said

"Fuck Radio" way before The Movement  
Scorcher has made an improvement  
But hey I'm Wiley  
None of you niggas ain't ever been grimier, you ain't slimier  
I'll push a samurai inside of ya  
You've made a few moves and you think that you're moving  
I've got more power on my own than The Movement  
When I come around I'm a nuisance  
Might bring two in if I'm slewing against any movement  
Ask any movement, I ain't a student  
Teach every spitter in the game what it's like not losing  
Alpha One Four Seven cruising  
New crep, new clothes, wardrobe's moving  
I just look at my garms I can't wear 'em all  
I got too many new Nike shoes in (I'm a sinner)  
Why oh why oh did you send Taio he's a lightweight  
If I'm gonna be swinging then it's gonna be the right weight  
Heavyweight fights they're a little more complex  
Me I carry weight I pray to the mic  
And you better pray I don't swipe your life  
Feel sweet at home lying down with your wife  
And I'll be in the Funky House dance with I  
Green in my pocket I dance the whole night  
The way I battle, I'll battle like I'm a winner  
I eat you for breakfast, lunch, brunch or dinner  
You will never hear me USA rapping on a song 'cause I'm UK  
You man ain't hard you're soft like a pillar  
So what'd you think it's joke I will roll on a man and start taking his skri  
lla  
This ain't about eediat tings it's all about pride and egos (I'm a sinner)  
Suck your mum cuz them type of talk that I'm inna  
Can't clash me, can spray long like a river  
And I'll be down by the river, got found by the river, didn't drown in the r  
iver  
You can't stop me taking his skrilla  
He can't stop me taking his skrilla  
Now you heard Scorcher's one
