

Image Ting

Wiley

Eskiboy

Energetic, I leave the dance paralytic

Image ting, everyting fresh

I should put diamonds in a bullet proof vest

I got my scene doing bits for the team so it ain't gonna matter when you put us to the test

I make a doubter eat his words and feel shitty

Came from the roadside like Po Nitty

Might bus' a hat when my hair gets picky

Then I get a haircut then the galdem see me

Everyting's on fleeks

I set the pace, then you follow like sheep

I got more money than my logins

And when I talk, my talk ain't cheap

When Titch first popped, I was here

When Jme first popped, I was here

When Stormzy first popped, I was here

And I'm still here today after all these years so

Image ting, got it on lock

Had it on lock, before Tinie popped

Had it on lock, before grime was hot

God knows, bro it's my time to win

And we all know now, it's your time to flop

It's in my veins, that's why I can't stop

Walk in the studio, I know myself

When you walk in the studio the stuff stays off

Now, image ting, make it look good

Even if you ain't make yourself from the hood

Even if you weren't there, put yourself there

I can see when a brudda's being boog, good

So I should, because I got brains, I'm the main man

All of the shit, it was my game plan

Fame came to me I was poppin' like Ray Bans

I run shit when I'm here like my names Giant Haystacks

Run revenge, run payback

If one percent of you doesn't like me when I'm spraying bars, bruvva stay back

You can't spray up me because I spray back

And when I spray back? Lord have mercy

Some of them dubs them are percy, flows too perky

You don't want beef, you're a jerky

None of your bars are gonna hurt me

Bro, you move too slow

I was on Z, when you was on O

I was on 10, when you was on 1

Every dance, I spray the dance dem dun

Take a walk with me, talk sport with me, come to court with me

I Helped Donny get on and when he got on

Went his way and never thought of me

I ain't hating but that's not cool to me

Image ting, everyting fresh

I should put diamonds in a bullet proof vest

I've been here since MRC 60s
Born late 70s, not 60s
I know about music from the 60s
Gyaldem are black, white, Asian, and mixies
I'll be makin' beats in my 60s
Head screwed on, that's why you gotta pick me
Bro, I took the risk, it was risky
Won't get offended if anybody diss me
Ayy, talk is cheap and we know that
Pass the gelato, fam, and let me roll that
Everybody's new hat, looking at my old hat
New pics looking like old ones I took with a Kodak
Throwaway, throwaway
If you don't know style then go away
I came in the game for a reason
I don't last a game, I last seasons
Energetic, I leave the dance paralytic
If anybody's got any talk, then direc' it
If anybody's got any talk, please projec' it
Wireless, I got the vibe-us
Looking for the rosé wine-us
I'm the definition of grime-us
They can't divide us
If you can't breathe it, unblock your sinus

Evolve or be extinct
