Wiley

(Eskiboy)  
(In the building)  
(Yo, dun know)  
(No hype, no hype) Basic  
Basic training (No hype)  
Basic training  
Listen, yo

Don't act like you're a West side badman  
Cah I know West side badman that will put six in your frame  
People in West ain't heard of your name  
After this fam, you'll be heard in the game  
And you can thank me, say "thank you Wiley"  
Then I get straight to the warring  
In the war, I'm rated highly  
Ask who Wolf is, nobody knows until he clash Wiley  
That means if you're a no-name  
Try and clash me in the game and you might get big  
But no, no, no fam, it don't go so fam  
You get left in cold on your own fam  
In Hoodstars, you ain't the star of the show fam  
You hate that, see, I know fam  
Ice Kid's running in your camp so  
How's this [?] big brother lookalike  
Gonna step to the heavyweight champ and win?  
Put that silly war place in the bin  
You don't talk to your family, like  
That must get headaches, you need  
Fam, you remain in Sheisty's shadow  
Will's sick, nobody's stuck in a ting  
Underdogs, they're so [?] to win  
Around here fam, there's nothing to win

It's okay if you wanna do war  
But if you're not better, don't say my name  
It's not like you could ever take my name  
I'm famous, still can't rate me  
So, why you wanna follow some pussy hole tune  
When Dizzee can't help but rate my name?  
I can't let you overtake my lane  
You're in my lane? Nah, you didn't take my lane

I overlap these MCs, I'm so far  
It's a par, I should go straight back to the car  
And leave this war, like Wolf, it's a par  
I've won the war, let me go back to the car  
It's a war I knew I was gonna  
I'm Billy, I'm [?], I'm [?] and ting much colder  
Bars that I write, they will take out any fake olders  
Heads off shoulders  
Back to winning, I'm just chilling  
It's not funny anymore, you're not [?]  
The knowledge of a grime kid, that's what I'd give him  
Know them youts but I don't move with 'em  
And I'm in West about, meet me at [?]  
Like you know where I'm living  
I could be in any part of London

I'm a part of London  
Couldn't point to the house that I live in

It's okay if you wanna do war  
But if you're not better, don't say my name  
It's not like you could ever take my name  
I'm famous, still can't rate me  
So, why you wanna follow some pussy hole tune  
When Dizzee can't help but rate my name?  
I can't let you overtake my lane

I'm the daddy with all this ice stuff  
I'm the coldest, you should see me spraying bars in ice clubs  
Take the vibes up  
Me and my crew, nobody like us  
And I will never turn on my kids in my life  
Because a lot you can learn from a kid  
And Wolf's angry, Ice Kid's gonna go far in his career, won't be shit  
Because he ain't going nowhere  
Ice can't see him  
I can't see him, grime can't him  
Even no night can't see him  
Win the war fam, I don't need to pree 'em  
Everybody around me, all I see is human beings  
We all play the same way  
So, I ain't gonna front, I'm a star of the month  
I'll take Wolf out any place that I see him

It's okay if you wanna do war  
But if you're not better, don't say my name
