

One Avalanche

Wiley

Eskiboy
Hello
Yeah

From the days of hardcore jungle, drum and bass
You wonder why you know my face
You saw me ravin'
I was a youngster dreaming of [?]
Paper weren't making
Like nowadays when the pound is strong
I'm Eskiboy and my sound is strong
Roll Deep's the movement now
For a long time we've been grafting with the best stop asking

One avalanche with me can wipe out a whole Fire Camp with ease
And I've got the techniques to make the P's
I've got stolen goods and I will make G's
If, you wanna purchase let's get real
Dun the long ting let's do this deal
And, I'm a top boy 'round here that's real
I know how sick that makes you feel

I'm one of them skilful players who plays the game, scoring goals
And when I turn on Channel U I hear 'em trying to get big off my flows
When it comes to the road
The big stage shows
Get on the mic they don't wanna know
But it's all cool though
You going mad like Frank Bruno
I'm the champ you know
How can they say my career is over
No faith in me
So here's what I'm doing
I'm gonna, weigh my movement
And if it weighs more than a 100 sumo's
I'll come to your studio
Whack you 'round the head with that juno
In school I used to do judo
Bare [?] like [?]
Roll in the [?] like [?]

It's about to heat up (it's about to heat up)
It's about to heat up (it's about to heat up)
It's about to heat up (it's about to heat up)
It's about to heat up (it's about to heat up)

It's about to heat up when I creep up
You be in your house with your feet up chilling
You know I'm willing to swing my names Will
Merk that soundboy quick I will
Clash I will, win I will, run around town with your girl I will
Break up happy homes I will
I'm a bastard and do what I feel
Nah nah, who's that [?] my feels
My flow ain't ever been [?] like ill's
And I don't [?] to get deals, I just make the music
Somebody feels it, and it just goes from there

Do a show 'round here just like 4 Wheels On The Bus
Go 'round and 'round
Spitting bars from town to town
It's sound on sound

One avalanche with me can wipe out a whole Fire Camp with ease
And I've got the techniques to make the P's
I've got stolen goods and I will make G's
If, you wanna purchase let's get real
Dun the long ting let's do this deal
And, I'm a top boy 'round here that's real
I know how sick that makes you feel

Intimidation ain't a word I care about I don't care about you
I only care about me so you should only care about you
And slander, that can't bring me down I'm building up my fan base
Roll Deep we're born to set pace
And if you're smart you will know that we started the race
Go from place to place explaining my purpose
When I spit I can make a whole crew nervous
Roll on my ones, when I see your gash on your mates
They wanna try act like nuns, come on
I know what goes down
Blazers come off, and skirts come down
So don't come around here acting innocent
We both know that you're not innocent
Keep on trying you will never weigh a kilo
My eyes turn red like an albino
Nah nah, you can't try it with Skeamo
And you can't find me I am like Nemo
I'm a craftsman straight to the studio
Master my craft [?]
MC's try to fly ahead but, watch me
I will fly past them, lyrically out last them
Can see the game at birds eye view
Observe what I do, I will merk your crew
[?] no long ting, I swerve on you
There's no way I will preserve on you
I spit bars on the block til the 12 with anyone
I don't care about them or you
I'm searching for worthy opponents
Reverse the war and win I'm the one not you's

One avalanche with me can wipe out a whole Fire Camp with ease
And I've got the techniques to make the P's
I've got stolen goods and I will make G's
If, you wanna purchase let's get real
Dun the long ting let's do this deal
And, I'm a top boy 'round here that's real
I know how sick that makes you feel

It's about to heat up (it's about to heat up)
It's about to heat up (it's about to heat up)
It's about to heat up (it's about to heat up)
It's about to heat up (it's about to heat up)
It's about to heat up (it's about to heat up)
It's about to heat up (it's about to heat up)
It's about to heat up (it's about to heat up)
