

Party Pooper

Wiley

They looking for me around if you haven't got a triple A pass
I see the, party popping
I arrive at the VIP [?]
Got the girls from Liverpool make me never wanna go home
So I'm gonna stay here for awhile
See how long it can last

I wanna go where the vibe will take me to
I wanna go there, 'cause I can make it through
And if you're ready, then I'm gonna take you too
I'm on a club vibe, baby I break you
She's got me saying she's better than
Them other girls when she is out dancing away-e-o
She's better than
Them, other girls when, she is out dancing away

Can't be a raver if you don't really wanna have fun
'Cause you will be in the party looking for vibes and find none
Got the same girls with me, they can roll
We a jiggy
When it comes to the party flex, we already

It feels strong like I never had fun

I wanna go where the vibe will take me to
I wanna go there, 'cause I can make it through
And if you're ready, then I'm gonna take you too
I'm on a club vibe, baby I break you
