

Played Da Game

Wiley

Yo
It's Eskiboy, right now
Tunnel Vision Volume Two
I got a friend with me, we're ready to do this ting
Big up Scratcha
Big up the Roll Deep massive, big up all the Boy Better Know massive
It's nothing long, listen

Me and him, we played the game a bit
Had a chance before, but then he wasted it
Thought that he cared, but he was faking it
Came in my space and tried invading it
Me and her, we've played the game a bit
Had a chance before, but then we she wasted it
Thought that she cared, but she was faking it
Came in my space and tried invading it

See me in the club, big bum, I'm shaking it (Shaking it)
I can't front, big dough, I'm making it
Plus I can see them girls are hating it
You can see my chain but you ain't taking it
I got the milkshake, boys are chasing it
If I get a number, my wife erases it
[?] and pie in the oven I'm baking it
When I make a riddim, the raver praises it

Me and him, we played the game a bit
Had a chance before, but then he wasted it
Thought that he cared, but he was faking it
Came in my space and tried invading it
Me and her, we've played the game a bit
Had a chance before, but then we she wasted it
Thought that she cared, but she was faking it
Came in my space and tried invading it

Me and him we played the game a bit
We do fly on aeroplanes a bit
Touch down in a new country
Raining its humid still, but I ain't complaining it
Me and her we've played the game a bit
Money well spent, Queen's head I'm chasing it
Six years of reward, we never came for it
Straight to New York, life is changin this

Me and him, we played the game a bit
Had a chance before, but then he wasted it
Thought that he cared, but he was faking it
Came in my space and tried invading it
Me and her, we've played the game a bit
Had a chance before, but then we she wasted it
Thought that she cared, but she was faking it
Came in my space and tried invading it

Me and her we've played the game a bit
Me and him we've played the game a bit
It's all Sun then it starts to rain a bit
It's all fun then it starts to rain a bit

Me and her we've played the game a bit
Me and him we've played the game a bit
It's all Sun then it starts to rain a bit
It's all Sun then it starts to rain a bit
Eskiboy
