Playtime's over
Yeah that's right, I'm an older
Been a street kid since car Honda, dark green rover
And I'm outside everyday
You won't [?] when the weather gets colder
If you were younger
You can learn a lot from me
What have you got for me?
You got beats? Got bars?
Then open your folder, spit your bars in
I'll tell you if you're gonna be good when you're older
Playtime's Over
Yeah that's right, I'm a soldier
And I got straps you could never get, sorry
I'm a heavy like a long body lorry
So don't get cheeky in class
Because you will be sorry
I can teach you, if you wanna learn on the other hand
Might star in EastEnders or Corrie
Get the good grades in
Wanna be [?] then A's in music
Because drama, no worries
Playtime's over

Playtime's over, I told ya
Been a street kid since car Honda, dark green rover
Playtime's over, I told ya
Got more sense, now I'm getting much older
Playtime's over
Playtime's over, I told ya
Been a street kid since car Honda, dark green rover
Playtime's over, I told ya
Got more sense, now I'm getting much older
Playtime's over

Playtime's over, I told ya
I was crewed up on the roads
I made money before I got a job
I was like Willy Fog
Have the brand new Rhino, car full of fog
House party with the room full of [?]
And boxes of [?] that my breddins brought
It's moving quite quick
Cruising night shifts
Wake up with more money in your girlfriend's crib
Playtime's over
I know, I gotta stop doing that
Telling 'em how I go out and bring two in that
I'm raw, I'll take out your crew and that

Playtime is over, stop doing that
If I do it, and everybody does it
Video budget, we might get through
Attack all the majors and all the papers
And I'll get the match from a razor

Playtime's over
Run up on the system, laughing
Playtime's over, I'm better than Hova
And I'm getting better everyday I get older
Think that I'm old? Well, mum, she's colder
Make more dough when I roll like a loner
You can play the game and I'll be the owner

Sheeting's ready, it's over
Playtime's over

Playtime's over, I told ya
Been a street kid since car Honda, dark green rover
Playtime's over, I told ya
Got more sense, now I'm getting much older
Playtime's over
Playtime's over, I told ya
Been a street kid since car Honda, dark green rover
Playtime's over, I told ya
Got more sense, now I'm getting much older
Playtime's over

So stop chatting, I'm chatting
Stop chatting shit and go and change your pattern
Won't hear me on a track, USA rapping
I'm a dangerous boy, only two man backing
If I call them, and they'll call you
Your crew will say "blud, we can't hack him"
Don't drag me in beef, I'll turn a new leaf
And I ain't just chatting

Playtime's over, I told ya
Been a street kid since car Honda, dark green rover
Playtime's over, I told ya
Got more sense, now I'm getting much older
Playtime's over
Playtime's over, I told ya
Been a street kid since car Honda, dark green rover
Playtime's over, I told ya
Got more sense, now I'm getting much older
Playtime's over
Playtime's over
Playtime's over
