

I'm on a power move ting (Let's go)
That's why I'm in power moving
We're the team, that's how I walk in
Talent I brought in
Can't fail 'cause I'm power talking
Hello
Said I'm gonna have a real good time
I weren't lying, 'cause I had a real good time
Look up, see Wiley
Look nan, it's Kylea
And I got the best conditions right beside me
How can I fail? (How can I?)
I can't
That's why I got this energy rummaging in my heart
I feel good, I feel strong, I feel smart
I feel ready like I came to the path upstairs
Listen to my music, clear (Clear)
Sounds good, don't it?
I'm a star, watch everybody quote it
While I kick back, sipping on Volvic

This is what I'm doing
You try to stop me, I won't be able to stop moving
When I'ma go out all I see is everybody doing me
I'm just reflecting

Back to basics, I grab the mic lead
You can say yours, let me say my piece
I got stars in my eyes on a hype ting (On a hype)
I don't live in that city but I might be
Still there, 'cause I'm loving it nightly
I ain't going home mum, don't try me
I stay here forever
Who says what? And I don't care, 'cause I wanna go to the top
Got money in the bank, so I breathe easy
I got a high work rate like Breezy
And when it comes to the crunch, I roll with a bunch
We share the bill cah we ain't greedy
Girl come and see me
I'm flying the flag
I used to be a little boy crying for dad
And I wouldn't cherish every minute I live
I love life so much I am slightly mad

This is what I'm doing
You try to stop me, I won't be able to stop moving
When I'ma go out all I see is everybody doing me
I'm just reflecting

I've seen so many pretty faces, uh, uh
Gotta pass them by to be at places, uh, no
Nobody stopping me
Stay focused, I can breathe
Anything I wanna be
Whatever my eyes can see
'Cause I got so much to give to the world
Even though, I'm just, a [?] girl

It doesn't matter where you come from
Only where you're gonna go
If you're gonna hold me back
All I'm gonna do is go
Yeah

This is what I'm doing
You try to stop me, I won't be able to stop moving
When I go out all I see is everybody doing me
I'm just reflecting

I'm just reflecting
I'm just reflecting
I'm just reflecting
Yeah, yeah, yeah
I'm just reflecting
I'm just reflecting
I'm just reflecting
Yeah, yeah, yeah
