

Remember Me

Wiley

Hey

I was putting in work, the money came after
In the rave tryna get burst, music, ladies and laughter
Yo, I fell down on the floor, my life got a bit darker
But then I got back up, and the fans said I'm the Godfather

I've had times in my life that were cringeworthy
Real street life, yeah I seen it from early
Could've been much worse off than I am
But I'm still the genius like Richie Turvey
Played with the fire but the fire burnt me
Was a good kid but the streets turnt me
Ledley made it and Ashley made it
But what about Ryan, Yogi and Kirby?
Even back then when my flow was perky
Certain dons tried do me dirty
But my OGs on the road are certi
There ain't much that can stop me or hurt me
One off, don't die 'cause an MC cursed me
Been mobile ever since it was Mercury
The game took a turn when a man dropped "Flying"
Now I'm sleepless, every day I wake up early

Don't hope for much but I just hope you remember me
Bigging up the MC's on my team and the ones that sent for me
A don told me the Godfather title ting it was meant for me
And it don't matter what you say to me, I just hope you remember me

You see the game's open, I ain't loafing
Got it in motion, thought I was over it but I was, ghosting
In my own bubble but I never stray away from bars, I stay floatin'
I just stroll in, still rollin'
Deep waters, catch him and hold him
I'm a librarian like Logan, and if I ain't got it I can phone him
It won't work if it ain't real, I know the deal
People talk trash and the trash looks real
If you don't read in between the lines you get lost out 'ere in the field
Sorry, that's real, hold on for just a second and chill
I was Will back then and today I'm still Will
I still will, I still spray 'cause I love it
I could never regret it 'cause I've done it

Don't hope for much but I just hope you remember me
Bigging up the MC's on my team and the ones that sent for me
A don told me the Godfather title ting it was meant for me
And it don't matter what you say to me, I just hope you remember me

I used to buy cars before I bought houses
I used to get producer block, but now I go around it
Ay, I used to get arrested, I couldn't wait to leave the police station
I used to be a eediat running my mouth in the beef with the paigons, it is w
hat it is
I be the, backpacker, the first backpacker
The first grime kid to care about what matters
Listen to myself in peace with no chatter
Market my brand like Patta
I remember when Titch had a bright green Kappa

Back then I was a full time trapper
I got the music in my soul and if you put me in a band I'll play the maracas

Don't hope for much but I just hope you remember me
Bigging up the MC's on my team and the ones that sent for me
A don told me the Godfather title ting it was meant for me
And it don't matter what you say to me, I just hope you remember me
Don't hope for much but I just hope you remember me
Bigging up the MC's on my team and the ones that send for me
A don told me the Godfather title ting it was meant for me
And it don't matter what you say to me, I just hope you remember me

I was putting in work

Yo, I fell down on the floor
