

## Rollin'

Wiley

We're rolling, we're rolling, we're rolling  
It's just me and Danny rolling  
E3 strolling  
We're rolling, we're rolling, we're rolling  
It's just me and Jet rolling  
E3 strolling  
We're rolling, we're rolling, we're rolling  
It's just me and Danny rolling

Yeah, I don't wear converse  
I write a good verse  
Got a 16 bar to handle your verse  
I'm a gift, I'm a curse  
Didn't wanna be no doctor or nurse  
Put music first  
Dad, you should've put music first  
Ask me what I wanna do, music first  
Give me a beat and I'll come with a moving verse  
This girl's got a brand new flat  
I will move in first  
Move in her then rush you first  
It's like you ain't heard  
Roll Deep, Roll Deep, yeah that's the word  
Got the vision of an eagle, that's a big bird  
Do crime everyday, and you face a big bird  
Jail ain't a place to waste what you've learnt  
I'm first of first to admit what I've learnt  
But as a learning curve, I keep myself heard

We're rolling, we're rolling, we're rolling  
It's just me and Danny rolling  
E3 strolling  
We're rolling, we're rolling, we're rolling  
It's just me and Jet rolling  
E3 strolling  
We're rolling, we're rolling, we're rolling  
It's just me and Danny rolling

Yeah, early birds catch the worm  
And I swear, bruv, any obstacles, I won't get burned  
I'm on [?] going to Stern's  
To buy some world music, waiting to learn  
So, listen and learn  
It's my turn  
I'm standing up firm  
It's money I wanna earn  
It's not Pay As You Go blud, it's Pay As You Earn  
Eskiboy is the return  
I'll bunsen burn the commercial versions of me  
I'm not urban, ask Matt [?]  
The music's disturbed, you heard it  
And I can six letter word it  
Fuck that's you can term it  
You had a form of vest on when you heard it  
Eskibeat, I churn it out  
I'm like status of earned it  
First to be, and I'll never stop learning

And that's why

We're rolling, we're rolling, we're rolling  
It's just me and Danny rolling  
E3 strolling  
We're rolling, we're rolling, we're rolling  
It's just me and Jet rolling  
E3 strolling  
We're rolling, we're rolling, we're rolling  
It's just me and Danny rolling

Yo, I can't wait till I'm universal  
And my pockets are bursting with money, money  
I'll buy a house and fully furnish it  
There's money in bricks  
Plus I move ninja, I'm out in the sticks  
I'm on a path, don't get in the mix  
But I've got no choice, I'm here to make hits  
That's not hard  
[?]'s been trying to tell me from day one, I've got the hits  
I'm going, I'm going, I'm gone  
Let's play catch up  
Flows, they don't match up to mine, no way  
Touch [?] away, each and every Friday  
Every week, we're clocking up miles  
And we're clocking a few air miles  
Desperate housewives, ringing up my lines  
That's underwear miles  
And there's always something under there, why?  
It's like cement and then tiles

We're rolling, we're rolling, we're rolling  
It's just me and Danny rolling  
E3 strolling  
We're rolling, we're rolling, we're rolling  
It's just me and Jet rolling  
E3 strolling  
We're rolling, we're rolling, we're rolling  
It's just me and Danny rolling
