

Shes A Rider

Wiley

Yo
Eskiboy
You know when you got one of them girls like, one of them girls she's like
She's not just your girl like, she's like
Your sister like... like your mum
Like, everything that she does
Everything for you innit
Like, if you're swinging she's even swinging innit
And certain man ain't even swinging innit
Like your bredrins are watching innit
But the gash is swinging though
You gotta go ugh, like boom

Yo
She's a rider
Loves me dearly
When I'm with her I can't see clearly
I just stopped doing music nearly
I don't trust her, if she ain't near me
And she knows what I'm like with the ladies
If I talk to a girl, she'll hear me
I told my dad that my life's in checkmate
He said "son you're a pioneer, it can't be easy
But you got to tread carefully
Look how you nearly lost your life on Tierney
All 'cause a younger tried to get lairy"
I was like, he's right and, she's on my side anyway
We roll like the force of a tide anyway
Still here after six years of lies anyway and
I told most of the lies anyway

So we're just here innit
Still going, still doing this ting
It's mad
Who would've thought you and me innit
Us like, rolling deep
Oi cause
Oi cause
What you looking cainrolls yeah?

We nearly didn't make it (Them man thought that innit, [?])
Through the storms but
I guess it's never easy when it comes to love (Yeah yeah, man's got that)
We used to fight and fight, but we always made it right
That's why six years gone by, we're so much stronger (Yeah, Eskiboy)

We do our view
Get heated
Cuss bad words, we don't mean it
Together 'cause we've got the same background
I've got love for her if she needs it
I can feel it, now my hearts bleeding
We'll die together, two families grieving
We've had enough of England, we're leaving
No voice mail retrieving
It's holiday season, and that's the reason
We fly 'round the world, sun rays beating

'Cause back in the day, we were the kids, inside the sweet shop teething
And when it's me and her, you ain't chiefting
Either one of us 'cause we do the chiefting
I've been with the mandem, and they're all sprinting
And this girls with me, and she's beefing

We nearly didn't make it (That's what I'm saying, that's sick)
Through the storms but
I guess it's never easy when it comes to love (Oi you know what, I think I g
ot my team ready you know)
We used to fight and fight, but we always made it right (Oi mandem remember)
That's why six years gone by, we're so much stronger (You always gotta walk
with God innit)

We nearly didn't make it (Oi let's go, let's go)
Through the storms but (Get my phone, get my gloves, where's the bike key)
I guess it's never easy when it comes to love (Oi oi pass my helmet)
We used to fight inside, but we always made it right (And get your one as we
ll innit, let's go let's go)
That's why six years gone by, we're so much stronger (Let's go, let's go, le
t's go)

We nearly didn't make it
Through the storms but
I guess it's never easy when it comes to love
We used to fight and fight, but we always made it right
That's why six years gone by, we're so much stronger

We nearly didn't make it
Through the storms but
I guess it's never easy when it comes to love
We used to fight and fight, but we always made it right
That's why six years gone by, we're so much stronger
