

Stand Up

Wiley

I don't know why anybody wanna chill
And let this slide
'Cause when you're reading between these lines
You can see the signs, igns
We haffi stand up
Everybody stand up, yeah
Go and get your bands up
Everybody stand up, yeah
Go and get your plans up, yeah
Everybody put your hands up

I know they wanna nail me
But there's nothing they can tell me
I do this like a Slim Jay
When I do the game, they don't wanna help me

It's a long road never going back
I'm on the frontline when you're sittin' back
See I won't crack, I'll be standing up
You done a couple years, that ain't bad enough

I don't know why anybody wanna chill
And let this slide
'Cause when you're reading between these lines
You can see the signs, igns
We haffi stand up
Everybody stand up, yeah
Go and get your bands up
Everybody stand up, yeah
Go and get your plans up, yeah
Everybody put your hands up

I said that Wiley bam-bam
I ain't gotta for some numbers
I hit them with that real vibe
Make them look at me, I wonder

It's a long road never going back
I'm on the frontline when you're sittin' back
See I won't crack, I'll be standing up
You done a couple years, that ain't bad enough

I don't know why anybody wanna chill
And let this slide
'Cause when you're reading between these lines
You can see the signs, igns
We haffi stand up
Everybody stand up, yeah
Go and get your bands up
Everybody stand up, yeah
Go and get your plans up, yeah
Everybody put your hands up
