

## This Time

Wiley

Yeah, yeah, yeah, yeah, Eskiboy (Boy), yo  
Hello  
Don't go  
Don't go  
I ain't gonna beg this time but  
Eskiboy  
Try and stick around and it might be, like, worth your while (E  
skibeat, Tunnel Vision) yo

This time, I'm gonna take time with her  
Spend time with her  
Straight up, tell the truth, don't lie to her  
My life's like a merry-go-round  
Turn your stereo up loud, I'm spending my life with her  
Target knows he's fell from the star  
Down to Brixton Academy  
I was like [?]  
And now the future lies in my actions  
If I keep cool, we'll be on a plane, flying

I'm the world, let me fly with her  
I guarantee she'll be so happy like my very first time with her  
Leave the money, leave the car, leave the lime with her  
Smart with money, I've been on the grind with her  
R6 406, been on my bike with her  
I might've mind out on sight with her  
You can't stop our set of emotions  
Fly around too  
You got your spies around who?  
I'm gonna spend every night with her
