Alright, Eskiboy, yo

Well I'm a soldier, I take chances  
Monkey magic, I swing on the tree branches  
What'd you mean I don't come from jungle rema  
Rudeboy, I keep the dances  
And I'm a champion, I win races  
Suffered crime cool, buss a couple cases  
I've been courting bare different places  
Black Huarache, black shoe laces  
And I'm a money boy, I'm worth paper  
That ain't cops blud, that's Wesley [?]  
I'm from L-O-N, not LA  
I'm not a laker  
Look into my face, there's not one crater  
Eski walks across water  
I'm like Jesus, first I was a pauper  
Now I'm Wiley, you might see me with the gangsters daughter  
Drinking wine in Mallorca  
Keep on trying, you will never weigh a kilo  
My eyes turn red like an albino  
Nah, nah, you can't try it with schemo  
And you can't find me, I am like Nemo  
Another craftsman straight to the studio  
Master my craft, I'm wenger like Arsène  
MC's try and fly ahead but watch me, I will fly past and lyrically outlast 'em  
I can see the game out birds eye view  
Observe what I do, I will murk your crew  
Every year, no long ting, I swerve on you  
There's no way I will preserve on you  
I spit bars from the block to the curb with anyone

I don't care 'bout them or you  
And I'm searching for worthy opponents  
Reverse the war and win, I'm the one not you
