

Eskiboy

It's Da 2nd Phaze right now and you know me I'm still treddin' on thin ice  
And I did leave XL, I didn't get dropped (I didn't get dropped), I know you  
think that though

Listen

Wiley's safe, Wiley's safe  
Yeah he's cool, yeah he's cool  
Wiley's safe, Wiley's safe  
Yeah he's cool, yeah he's cool  
When you see him take the piss, when you see him take the piss  
Put him to the test, put him to the test

Put me to the test I created a monster  
I can make the rave wile out  
What'd you want from a prick like me who ain't got power  
Why'd you think you see me in your manor  
This boy's got power, I send it straight through the air wave scanner  
But some of them ain't got manners  
I've been going against my own people for so many years  
I don't care if we're the same colour  
I don't care if your mother knows my mother  
Right now that's irrelevant brother  
What I've noticed is when I'm in beef it's me against twenty others  
I must be a powerful black brother, known in every borough  
I like betting, I bet you're a one-er  
Revenge is sweet, if you don't run now blud I'll make you a runner

You're not real, I know the deal  
I'll be whizzing 'round like meals on wheels  
Making noise is your only skill  
I'll never be broke I'm here to make bills  
You're not real, I know the deal  
I'll be whizzing 'round like meals on wheels  
Making noise is your only skill  
I'll never be broke I'm here to make bills

In the battlefield you need a sword and a shield  
Before you battle me you need a three course meal  
My name ain't Peter, my name ain't Neil  
My name's Kylea I've got stainless steel  
If it's all on then we'll, come to your show and all will be revealed  
I say what I wanna say, I say what I feel  
I get reloads from here to Huddersfield  
I'm real, you're not neigh you won't click my heels  
I've got brains like the Navy SEAL's  
I'm old school like cars with three wheels  
I've had beef but I've managed to heal  
I'm a bad boy but I ain't king on the hill  
So don't treat me like king on the hill  
Smack you in the groove with the lock for the wheel  
If you can't hear then you won't will

Wiley's safe, Wiley's safe  
Yeah he's cool, yeah he's cool  
Wiley's safe, Wiley's safe  
Yeah he's cool, yeah he's cool

When you see him take the piss, when you see him take the piss  
Put him to the test
