

# You And I

Wiley

Every week, face the thought of pray  
Play is when we were happy  
All love, little things seem to put a smile on my face  
Can you stop, thinking of all the time we shared?  
We came so close  
All I want is another chance  
And boy I know you feel the same

I feel we came so close, you and I  
Can we give this thing (Eskiboy, Eski, yo) just one more try? (Strolling high)

I hear what you're saying but lately  
It's like I'm falling for Sadie  
I'm hearing she's my baby, sexy lady, drives me crazy  
It seems as if you hate me  
I'm sorry Am, don't worry 'cause I'll take care of you if you're down  
But I can't get back with you, I'm crazy in love  
Maybe I loved you back then  
Now I'm flying with dubs, I'm flying the clubs, I've tried enough  
No doubt you've cried enough  
My life is firing up  
My pain's piling up, so just forget we had anything  
You've got boys lining up

I feel we came so close, you and I (You and I)  
Can we give this thing just one more try? (Give this a)  
I feel we came so close, you and I (I feel we came, you and I)  
Can we give this thing just one more try? (Can we give it baby? Just one more try)  
(Eskiboy, yo)

I'm a bastard, you know that  
When I'm around, it shows  
You've tried it, willingly come to blows  
I've just turned my back  
Really that's the only time I turn up to shows  
I'm a star in the making, money is making  
Your new managers hating  
He's a prick anyway  
What?  
You make me sick anyway  
Been taking the mick anyway  
Took me for a prick anyway  
And now I'm flying away  
You wanna know why I'm heartless?  
You dissed me back in the day  
I didn't forget, I couldn't forget  
Just go away, I'm alright

I feel we came so close, you and I  
Can we give this thing just one more try?  
I feel we came so close, you and I  
Can we give this thing just one more try?
