

Balance

Wilkinson

Standing like I'm on a wire
Stepping in and out of fire I balance, I balance
What I can and can't control
Both holding on and letting go
I balance, I balance

Stop me falling from heights
Stabilise
I find balance with you

I find balance
I find balance
I find balance with you

I find balance with you

I find balance
I find balance
I find balance

I find balance with you

I find balance
I find balance
I find balance

I find balance with you

I find balance
I find balance
I find balance

Crashing through the borderline
Running out of too much time
I balance, I balance
Every thought I push away
I'm letting go so I can stay
I balance, I balance

Stop me falling from heights
Stabilise
I find balance with you

I find balance
I find balance
I find balance with you

I find balance with you
I find balance with you

I find balance
I find balance
I find balance
I find balance with you

I find balance
I find balance

I find balance
I find balance with you

I find balance
I find balance
I find balance
I find balance with you

I find balance
I find balance
I find balance

Stop me falling from heights
Stabilise
I find balance with you

I find balance
I find balance
I find balance with you
I find balance with you
