

I Need

Wilkinson

Under the waves, over the hills
You're what I'm waiting for, you're what I need
Lost in the sky, sink in the ocean
I want it more and more, I need, I need

I need your sunlight to my Winter
I need your sunlight to my leaves
Oh, can you let me swim your rivers?
I need, I need, I need, I need

I need your love
I need, I need, I need your love washing over me
I need your love
I need, I need, I need your love
I need your

(Your, your, I need)
(Your, your, I need your love, love)
(Your, your, I need)
(Your, your, I need)

Into the mountains, far from the breeze
I won't be givin' up until we're free
Oh free to climb, free to fall
Crash through the waters, or ride them all

I need your sunlight to my Winter
I need your sunlight to my leaves
Oh, can you let me swim your rivers?
I need, I need, I need, I need

I need your love
I need, I need, I need your love washing over me
I need your love
I need, I need, I need your love
I need your

(Your, your, I need)
(Your, your, I need your love, love)
(Your, your, I need)
(Your, your, I need)

Oh, I
Oh I'm lost without you, I can't breathe
And I know that you're all I need

I need your love
I need, I need, I need your love washing over me
I need your love
I need, I need, I need, I need

(Your, your, I need)
(Your, your, I need your love, love)
(Your, your, I need)
(Your, your, I need your love, love)

I need your love

I need, I need, I need your love washing over me
I need your love
I need, I need, I need your love
I need your love
