

Lose Control

Wilkinson

Do you think that [?] should get time to prepare?
Uh, stand-by, one second
And throughout the music, you think [?] look real good

I'm sleepless
Can't breathe in
Looking for a face I know
I don't wanna be alone
Daydreaming
No feelings
Looking for a place to go
Somewhere I can lose control

I'll find my nirvana
And I would never let it go
And I would never let it go
These lights, I will follow
Somewhere I can lose control
Somewhere I can lose control
And I would never let it go

Somewhere I can lose control

And I would never let it go
Somewhere I can lose control

I'll find my nirvana
And I would never let it go
And I would never let it go
These lights, I will follow
Somewhere I can lose control
Somewhere I can lose control

I'm sleepless
Can't breathe in
Looking for a face I know
I don't wanna be alone
Daydreaming
No feelings
Looking for a place to go
Somewhere I can lose control

I'll find my nirvana
And I would never let it go
And I would never let it go
These lights, I will follow
Somewhere I can lose control
Somewhere I can lose control

And I would never let it go
Somewhere I can lose control

I'll find my nirvana
And I would never let it go
And I would never let it go
These lights, I will follow
Somewhere I can lose control

Someplace I can lose control
