

No One Else

Wilkinson

Over and under
To the edge
Take me far beyond the limit of myself

Carry me further
With a single breath
When you're near me we're floating on air

It's you and no one else
We're floating on air

It's you and no one else
We're floating on air

It's you and no one else
We're floating on air

Over and under
To the end
Take me far beyond the limit of myself

Carry me further
With a single breath
When you're near me we're floating on air

It's you and no one else
We're floating on air

It's you and no one else
We're floating on air

It's you and no one else
We're floating on air

It's you and no one else
