

## If I Could

Will Downing

If I could, If I could  
A cold and lonely October  
First time I saw your smile  
This time I've always remembered  
Constantly on my mind  
And If we should ever meet again  
I promise all my love to you  
If I could, I'd catch falling a star for you  
Id make a wish and even If skies were blue  
For you to love me, cause I love you till the end of time  
Now it's the third of December  
And your still on my mind  
And I'm thinking If I could only see your face again  
I would, I would be alright  
And I'll always be the one you need  
And I will always love you  
If I could, I'd catch falling a star for you  
Id make a wish and even If skies were blue

For you to love me, cause I love you till the end of time  
Ooh, ooh  
Oh, oh, oh.....  
If I could I would  
I need you in my arms tonight  
If only in my dreams  
Id rather hold my pillow tight  
Than hold somebody else, cause nobody else makes me feel  
The way you do, So good inside, Even if its in my mind  
If I could, I'd catch falling a star for you  
Id make a wish and even If skies were blue  
For you to love me if I could, if I could  
Ooh.....yea.....Id catch a falling star for you  
If I could (Make a wish and make it come true)  
For you to love me  
Cause I love you till the end of time  
(Repeat & Fade)
