

Your Smile

Will Downing

Smile smile
Oh baby won't you smile smile
In your eyes shine pictures of this time for us
I meant with love
When our lips kiss words move the earth and shake my world
But nothing is as much
Like that special touch from your arm your smile yeah
If anything I miss I never could resist
Your your smile

Your touch has tenderness a sweet caress
That soothes all pain when I'm lost and feeling low to you I go
To make things right again
But nothing means as much as much like that special touch
Of your smile
Yeah baby everything I miss never could resist your your smile

When you smile
Come on smile
Smile for me yeah
Smile smile smile when you smile for me
Show me that pretty smile
Your smile your smile your your smile
If anything I miss never could resist your your smile
No other love can make my life
No one can make things right til my baby smiles
Smile listen no other love can light my life
No one can make things right until my baby smiles
Smile your smile your smile it drives me wild
No other love can light my life no one can make things right
Til my baby smiles
Your smile your smile its your smile smile your smile until my
baby smiles
