

Another Planet

Will Hoge

That motel in the desert
Felt your heartbeat through your chest
Talked about forever
And I forgot the rest
Pickin' up the pieces
We were changin' up the plan
Oh, but [?]
Gettin' lost with you again

I need another planet
'Cause I can't make it through
I tried to stick the landin'
But it broke me right in two
How lonely would the ocean be
In a world without a moon?
I wouldn't wanna live
In a world without you

Static on the TV
Slow dancin' with despair
You held me like a promise
While I held on by a prayer
You chained the doll and said you're stayin'
And you said you always will
That night scares me half to death
When I think about it still

Oh I need another planet
'Cause I can't make it through
I tried to stick the landin'
But it broke me right in two
How lonely would the ocean be
In a world without a moon?
I wouldn't wanna live
In a world without you

If you would call I wouldn't last one day
You know I'd have to find some other place

'Cause I need another planet
'Cause I can't make it through
I tried to stick the landin'
But it broke me right in two
How lonely would the ocean be
In a world without a moon?
I wouldn't wanna live
Oh, I wouldn't wanna live
Oh, I wouldn't wanna live
In a world without you

I wouldn't wanna live
In a world without you
