

# I Still Got It

Will Hoge

'59 Cadillac smooth and slow  
Still gets you anywhere you need to go  
Still looks good  
Still turns heads  
It's racking up the miles  
But it ain't done yet  
Painted jet black  
Leather seats that are snowflake white

Daddy got it new off the showroom floor  
Son, they don't make 'em like this no more  
Shark tail fins and fender skirts  
V8 humming like a wildcat purrs  
Gonna dress it up and gonna press my luck tonight

Yeah cause I still got it  
I still got it  
Don't worry honey I'm sure as your money in the bank  
I still got it  
I still got it  
Don't worry honey I still got a little something in the tank

Cruising down Broadway  
With the top rolled back  
Two boys in a pickup truck  
Pointed and laughed  
All the girls walking by  
Looking at them  
But then they walked up  
And then jumped right in  
I turned up the radio  
And blew them little boys away

Cause I still got it  
I still got it  
Don't worry honey I'm sure as your money in the bank  
I still got it  
I still got it  
Don't worry honey I still got a little something in the tank

This thing'll go forever  
But it won't go fast  
Ain't built for speed  
But it's built to last  
May run low  
But it never runs out  
Don't let the years fool you  
Still got it where it counts

I still got it  
I still got it  
Don't worry honey I'm sure as your money in the bank  
I still got it  
I still got it  
Don't worry honey I still got a little something in the tank  
Something in the tank  
Something in the tank
