

# Long Gone

Will Hoge

Long gone, goin' on  
All the doors are locked up since he's done you wrong  
And in time I'll find  
The key to open up that lock and make you mine

One day you'll see how good it could be  
If you're not already long gone, long gone

His lies and your cryin' eyes  
Did they push you far enough to realize?  
But I'll wait all day  
And all night right here with you if that's what it takes

So one day you'll see how good it could be  
If you're not already long gone, long gone

Let go of the ghost  
'Cause now you're supposed to be free  
Just see how it goes  
I'm keepin' as close as can be, as close as can be, yeah

One day you'll see how good it could be  
If you're not already long gone  
One day you'll find that true love is mine  
If you're not already long gone, long gone, long gone
