

## Nikki's a Republican Now

Will Hoge

She had a "Reagan Sucks" sticker on the window of her car  
Back seat like a hotel, front seat like a bar  
Skipped school every Friday smoking Kools cigarettes  
Blasted U2 and the Pixies on an old Maxell cassette  
Black nails, shaved head, dark Martin, little rock-n-roll queen

Got pregnant in the eleventh grade when she was seventeen  
By my friend Terrell, the captain of the basketball team  
Her daddy didn't like it so he made it disappear  
She didn't have a baby, never had a senior year  
Haven't seen her since she left and I thought about her just the other day  
My friends told me:

Nikki's a Republican now  
Nikki's a Republican now  
Nikki's a Republican now  
Nikki's a Republican now

I got a online and found her and I just could not believe  
But there's Nikki with a Bible and a AR-15  
She says that all lives matter and the media's a scam  
The only gun control that she supports is usin' both hands  
She stands for the anthem, says marriage is a woman and a man  
Oh my good God!

She kicked her son out of the house 'cause she found out he was gay  
He and his husband got their second Hatian baby on the way  
Her daughter is a lawyer for the ACLU  
Her boyfriend is a folk singer socialistic Jew  
They don't come home to see her anymore because the think that she's insane
