

# Silver Linings

Will Hoge

To say this year's been hard on me  
Is the unequivocated understatement of the century  
My patience and my paychecks wearin' thin  
It's hard to make ends meet when you can't find the ends

And when these dark times get you down  
They can cut you clean in two  
Well, you better find those silver linings  
And pull on through

Man, this year can't end soon enough  
I'm tired of wrestlin' with the feelin's of losin' people that  
I love  
Never thought I'd come to see a time  
That I'd unpack enough to appreciate what's mine

And when these dark times get you down  
They can cut you clean in two  
Well, you better find those silver linings  
And pull on through

I spent half my life  
Just tryna find a place that felt like home  
And I'm sittin' here tonight  
And finally realized what I was missin' being gone

And when these dark times get you down  
They can cut you clean in two  
Well, you better find those silver linings  
And pull on through

Well, you better find those silver linings  
And pull on through
