

Til It's Gone

Will Hoge

Kinda like the way I'm feelin'
Everything's ringin' all the time
Lyin' here, starin' at the ceilin'
I can't wait to see a bright, blue sky
I can feel the seasons changin'
I can taste summer on your tongue
Ice cream meltin' on the concrete
All the shit I wasted bein' young

It ain't always gonna be like this
But I always thought it would
Faded like my innocence
Guess I never understood
The time it takes
To get this feelin' close to right
But now I hold on
Til it's gone

Laughing at that bar on Bleecker
I tried to tell the whole world what I think
Runnin' my mouth like the D-train
You left and then I chased you down the street
You were wearin' that White Stripes t-shirt
You said, "I need to tell you the bitter truth
You better get your shit together"
I felt the weight of everything I had to lose

It ain't always gonna be like this
But I always thought it would
Faded like my innocence
Guess I never understood
The time it takes
To get this feelin' close to right
But now I hold on
Til it's gone
Til it's gone
Woo

It ain't always gonna be like this
But I always thought it would
Faded like my innocence
Guess I never understood

It ain't always gonna be like this
But I always thought it would
Faded like my innocence
Guess I never understood
The time it takes
To get this feelin' close to right
But now I hold on
Til it's gone
Til it's gone

Til it's gone
Til it's gone
