

# Do What You Will Do

Will Oldham

Do what you will do  
i will watch with you  
though i'm charged to wait awhile  
i will wait for you in style  
with you as a guide  
i stay awhile  
watch with me

i won't ask you to be friends with me  
nor to stand by and protect  
i can't ask you to lay hands on me  
just to show me some respect

do what you will do...

and in rough times i can be with you  
laying early in my bed  
and in time i go to sleep and you  
lay a kiss upon my head

do what you will do...

if an end comes it is good to be  
in the presence of a few  
with a few friends is how it should be  
when everything is through

do what you will do...
