

# Like The Last Time

Will Sheff

In the middle of a stream  
Swimming everyday waterfall  
On the sunlit trampoline  
Watching the clouds rise and the city fall

How the final light of sunset found you  
As it went out

Singing in the submarine  
Here's to my brother on the surface now  
Get the money any means  
Oh can you feel those who come around?

And you can make a rainbow fade out of the brainless circling stream  
Or you check yourself awake into another dream

Nobody said  
It's gotta be like the last time  
Go misery  
Ain't gonna be like the last time  
Hell, yeah

Heavy hearted refugee  
Nothing radiant than infinity  
Universal amputee  
Everyone's in on the atrocity

On that divided day it drains away  
It's between you and me  
Hey, holy mother, is this what you sent me to this place to see  
?

Nobody said  
It's gotta be like the last time  
Ain't gonna be like the last time  
That's what I said  
Hey, come on, come on, come on
