

# Between Us

Will Sparks

If I drown, would you even  
Hear my sound, would you hear me call?  
If I'm far from the place that you are  
You are

Why'd we fade? Miss you every  
Night and day, but you're stuck in my mind  
And I'm far from the place that you are  
You are

Echoes of us are  
Needing a second chance  
But I still wonder  
There's one thing I need to ask

Will you search for me  
In the space that's between us?  
I'm somewhere, out there

Will you reach for me  
In the silence between us?  
I'm somewhere, out there

In the wake, do you still think  
Of my name? Did I leave a scar?  
Leave a scar right upon your heart

Is my face just a relic  
That you saved?  
Are you in my past?  
Is there space for me left in your heart?

Echoes of us are  
Needing a second chance  
But I still wonder  
There's one thing I need to ask

Will you search for me  
In the space that's between us?  
I'm somewhere, out there

Will you reach for me  
In the silence between us?  
I'm somewhere, out there

If I drown, would you even  
Hear my sound, would you hear me call?  
If I'm far from the place that you are  
You are

Will you search for me  
In the space that's between us?  
I'm somewhere, out there

Will you reach for me  
In the silence between us?  
I'm somewhere, out there

In the wake, do you still think  
Of my name? Did I leave a scar?  
Leave a scar right upon your heart
