Will Sparks

We're all just water and dust
Spinning our wheels fast as we can
Until they rust
Holding breath saving what's left
When we should be saying the things
You won't forget
You won't forget

Is this real or just a test?
And will I pass or just pass on
Like all the rest
Hope is found in what comes next
But I can't go if part of me
Still hasn't left
Still hasn't left

If you can't hear me
If you can't see me
Just don't let go
I'll still be close

Just don't let go
If you can't hear me
If you can't see me
Just don't let go
I'll still be close

Ooh ooh ooh ooh
And I could never leave you
So when I'm not around
My voice will still be with you
To wrap you in the sound

And I could never leave you
I'll follow you around
My voice will haunt you daily
So you won't forget the sound

And I could never leave you
So when I'm not around
My voice will still be with you
To wrap you in the sound

If you can't hear me
If you can't see me
If you can't feel me in your soul
Just don't let go
I'll still be close
