

Dark Water

Will Sparks

Hardcore motherfucker

The years you've ignored what's on your face
The years you've been turning your back on this place
The void is a place you can't escape
There's a voice past you you can't just plug away

Dark water pulls you under so
Felt it for years 'cause you didn't know
Dark water makes, I up and go
'Cause you follow, follow, follow, follow...

Dark water pulls you under so
Felt it for years 'cause you didn't know
Dark water makes, I up and go
'Cause you follow, follow, follow, follow (follow, follow, follow, follow, follow, follow...)

Glad you follow, follow, follow, follow
Glad you follow, follow, follow, follow

Hardcore motherfucker
