

Indestructible

Will Sparks

We have a touch that could ignite the sun
We're burning brighter than anyone
Our bond is strong, it's a shining light
We can chase away an endless night

We'll face the fire, we'll fade the storm
We'll find our way through, against it all
We are indestructible
We are indestructible

We are indestructible

My heart's a strong suit, we never fall
With every breath we, we give our all
We are indestructible
We are indestructible

We are indestructible
Indestructible
Indestructible
Indestructible
We are indestructible
