

Nevermind

Will Sparks

Nevermind

What was that feeling I knew
So long ago?
Desperation fills the air
So long as I don't ask too much
I got the freedom to exist?
We all fall
One way or another

One more day, one more week
Is there mercy?
One more day, one more week
There is no mercy
Nevermind

You've lost your friend
The one who told you where to go
I said goodnight [?]
Don't let them tell you you have to change
Nevermind
Nevermind
Nevermind
Some say we're in the serving
So fucking what?
