

Patience

Will Sparks

Names don't hurt me I show no mercy no damage ever enough
Fight your demons till they're not breathing with you I am strong enough
My mind not breaking I'll use your patience till barriers start to fall
Fight my demons till they're not breathing be with me through it all

The reason I'm no longer bleeding is you
Deep under water still breathing for you
Give you my all until I'm black and blue
I'll be your shelter all I need is you

Heart on my sleeve I'm still reaching for you
Show me you love me and I'll pull you through
Give me your all until you're black and blue
You'll be my shelter all I need is you
