

Surrender

Will Sparks

Decisions, decisions
We know all we need to know
It's different, we're different
Now the fire's lost its gold
Can we pull this back to reality?
Should we lose it all? Illusive
Feel our love come down like it's gravity
Why are we meant to fall?

Counting down the seconds
Laying down our weapons
We know that it's better
If we just surrender

No more second guessing
We know that it's ending
We know that it's better (it's better)
Surrender

Surrender

We know that it's better (it's better)
Surrender

No more second guessing
We know that it's ending now
We know that it's better (it's better)
Surrender

Surrender-ah, surrender
Surrender-ah, surrender
Surrender-ah, surrender
Surrender-ah, surrender
Surrender-ah, surrender
Surrender-ah, surrender
Surrender-ah, surrender
Surrender-ah, surrender

Counting down the seconds
Laying down our weapons
We know that it's better
If we just surrender

No more second guessing
We know that it's ending now
We know that it's better (it's better)
Surrender
