

# Take Me

Will Sparks

All yours if you want it  
Nonstop giving you everything I've got  
All night till the morning  
Nonstop giving you everything I've got

Trust that the feeling come over me  
And let it take me away  
Heaven's so close when you're holding me

Want it again and again, take me  
All night, take me  
All night, take me  
Want it again and again, take me  
All night, take me  
All night, take me

All night, take me  
Everything I've got  
All night, take me

Smoke it if you've got it  
Head down, let it all lights flash till the sound  
All yours if you want it  
Nonstop giving you everything I've got

Trust that the feeling come over me  
And let it take me away  
Heaven's so close when you're holding me

Want it again and again, take me (over, over)  
All night, take me (over, over)  
All night, take me  
Want it again and again, take me  
All night, take me  
All night, take me

All night, take me  
All night, take me
