

Christmas Time

Will Young

The snow has fallen
My wounds have gone
These icy rivers
Have brought a song
The birds have flown and left me here
A new beginning
And a crisp white tear

My heart is melting
On frosty ground
The sun is rising
Can't hear a sound
While children sleep the world's my own
The winds are changing and I'm no longer alone

Christmas morning
The world is singing
Bells are ringing clear
Let's start over
A new beginning
The world's forgiving at Christmas
At Christmas time

The trees bare branches
Are reaching out
To say they're sorry
To spread love all around
The Christmas lights they wink at me
Knowing what's to come
Knowing what will be

Christmas morning
The world is singing
Bells are ringing clear
Let's start over
A new beginning
The world's forgiving at Christmas
At Christmas time

The winter comes and goes
Steals a passing year
Taking all my tears
Away
(Taking all my tears away)

Christmas morning
The world is singing
Bells are ringing clear
(The bells are ringing clear)
Let's start over
A new beginning
The world's forgiving at Christmas
At Christmas time
At Christmas
At Christmas time
At Christmas
Christmas time
