

# Come On

Will Young

Walk away  
That's what you do  
And it looks like I'm  
Somebody you, once knew  
You're caught in a corner  
With nowhere to hide, you're eyes  
Do you think you wanna  
Say goodbye

Hey  
Always the last to say  
Everything makes you feel  
Like a walking away  
Come on, come on, come on, come on  
Hey  
Always the last to say  
Everything makes you feel  
Like a walking away  
Come on, come on, come on, come on

There's a bit of me  
That will always be, with you  
And something tells me  
This is love due

Hey  
Always the last to say  
Everything makes you feel  
Like a walking away  
Come on, come on, come on, come on  
Hey  
Always the last to say  
Everything makes you feel  
Like a walking away  
Come on, come on, come on, come on

Come on, come on, come on, come on  
Come on, come on, come on  
Come on, come on, come on, come on  
Come on, come on, come on

Like a dream  
The sky is falling  
Is it you who's talking  
Can I take these words away  
Heyay

Hey  
Always the last to say  
Everything makes you feel  
Like a walking away  
Come on, come on, come on, come on  
Like a dream  
The sky is falling  
Is it you who's talking  
Can I take these words away  
Like a dream

The sky is falling  
Is it you who's talking  
Can I take these words away
