

Dare

Will Young

Don't you want me
I can see you looking from the other side
Making me smile
Who knows what's going on
Keep an eye on the time now baby

Take my hand, take my hand and follow me
Come a little closer move in and rest your head
If you dare
Come a little closer if you dare with me
Share a little turmoil if you want
Come a little closer if you dare
And we can lie together

White wings white wings they flurrie past
Never know if they're going too fast
Take a second to breathe and let the ocean in
Take my heart

Take my hand, take my hand and follow me
Come a little closer move in and rest your head
If you dare
Come a little closer if you dare with me
Share a little turmoil if you want
Come a little closer if you dare
And we can lie together

Take my hand, take my hand and follow me
Come a little closer move in and rest your head
If you dare
Come a little closer if you dare with me, with me
Share a little, share a little, share a little
turmoil if you want
Come a little closer if you dare
And we can lie together
